Pickup

Pickup means collecting used linen from a hotel for washing and cleaning.

Delivery means fresh linen delivered to the hotel.

Pickup means used or soiled linen collected from the hotel.

The driver performs pickup segregation at the hotel.

The driver is responsible for identifying and logging Heavy Soil and Damaged pickup items.

Pickup Quantity

Pickup quantity means the actual quantity of linen collected from the hotel.

Pickup quantity usually matches the delivery quantity, but it does not have to match.

Example:

- Delivered quantity: 500 bath towels
- Actual pickup quantity: 480 bath towels
- Driver should enter pickup quantity as 480.

The driver does not have to enter the original delivery quantity as the pickup quantity.

The app allows the actual pickup quantity to be lower than the delivery quantity.

Remarks are optional. The driver may use Remarks to explain a quantity mismatch or another unusual situation.

Heavy Soil

Heavy Soil means linen with heavy stains or dirt that cannot normally be cleaned through a regular wash and requires special treatment.

Examples of Heavy Soil:

- Curry stain
- Blood stain
- Dried stain
- Set-in stain
- Grease mark
- Heavy dirt
- Heavy grime
- Any stain requiring special treatment

Simple rule:
Heavy Soil is a stain or dirt problem requiring special treatment.

Damaged

Damaged means linen with physical or structural damage.

Examples of Damaged linen:

- Torn linen
- Ripped linen
- Hole in the fabric
- Linen ripped in half
- Severely deteriorated fabric
- Physical defect that makes the linen unusable

Simple rule:
Damaged is a physical or structural problem with the linen.

Heavy Soil vs Damaged

Heavy Soil is related to stains or dirt.

Damaged is related to physical damage.

Curry stain = Heavy Soil.

Blood stain = Heavy Soil.

Grease mark = Heavy Soil.

Dried stain = Heavy Soil.

Torn edge = Damaged.

Hole = Damaged.

Ripped linen = Damaged.

Ripped in half = Damaged.

Severely deteriorated fabric = Damaged.

Fading or discoloration by itself is not considered physical damage.

Linen With Both Heavy Soil and Damage

A single linen unit can have both Heavy Soil and Damage.

Example:
A bedsheet has a blood stain and a tear.

The driver must log the unit under Heavy Soil.

The driver must also log the unit under Damaged.

Heavy Soil and Damaged must be entered separately.

When one unit is logged under both Heavy Soil and Damaged, two photos are required.

One photo is required for the Heavy Soil entry.

One photo is required for the Damaged entry.

Pickup Segregation Location

Heavy Soil and Damaged segregation must be performed at the hotel.

The driver performs the segregation at the hotel during the pickup visit.

The driver must complete the required pickup segregation and photos before leaving the hotel.

The driver cannot leave the hotel and complete the required photos later.

Starting a Pickup Visit

To enter pickup information:

1. Open the hotel visit.
2. Open the relevant order.
3. Tap Start Visit.
4. Start Visit can be performed only inside the hotel perimeter.
5. Open the Pickup tab.
6. Select the relevant product.
7. Select Heavy Soil or Damaged when applicable.
8. Enter the quantity.
9. Capture the required photo.
10. Complete all required entries.
11. Tap Save and Continue.

Heavy Soil and Damaged Quantity

The quantity entered as Heavy Soil or Damaged cannot exceed the pickup quantity.

Example:
Pickup quantity = 10 bath towels.

The driver cannot enter:

- 11 Heavy Soil bath towels
- 12 Damaged bath towels

The app prevents the driver from entering a Heavy Soil or Damaged quantity greater than the pickup quantity.

Photo Requirement

A photo is mandatory for every flagged unit.

One Heavy Soil unit requires one Heavy Soil photo.

One Damaged unit requires one Damaged photo.

Examples:

5 damaged bath towels = 5 photos.

10 Heavy Soil bath towels = 10 photos.

3 damaged bedsheets = 3 photos.

7 Heavy Soil pillow covers = 7 photos.

Photo Format

The photo format is handled automatically by the Pushpak app.

The driver does not need to select a photo format.

The driver only needs to capture the picture through the app.

Retaking a Photo

If a driver captures an incorrect, blurry, or unsuitable photo, the driver can remove the photo and capture another one.

To remove a captured photo, tap the X button on the image.

After removing the image, the driver can capture a new photo.

Photo Location Requirement

Required photos must be captured at the hotel.

Photos cannot be uploaded after the driver leaves the hotel perimeter.

The driver must complete the required photos before proceeding to the next step.

Missing Photos

The app blocks the driver from continuing when required photos have not been completed.

The driver cannot move to the next step until all required photos are captured.

The driver cannot leave the hotel and upload the missing photos later.

Hotel Dispute

If the hotel disputes a Heavy Soil or Damaged classification, the driver should contact the team.

The driver should contact the team when the hotel disagrees with the classification of an item.

Driver Responsibility

The driver is responsible for Heavy Soil and Damaged segregation because segregation happens at the hotel.

The driver is responsible for:

- Identifying Heavy Soil.
- Identifying Damaged linen.
- Entering the relevant quantities.
- Capturing the required photos.
- Completing the pickup entry before leaving the hotel.

Remarks

Remarks are optional.

Remarks can be used to explain:

- Pickup quantity mismatch.
- Unusual pickup situations.
- Other relevant information.

Remarks are not mandatory for every pickup.

Common Questions

What is pickup?

Pickup is the collection of used linen from a hotel for washing and cleaning.

What is Heavy Soil?

Heavy Soil is linen with heavy stains or dirt that requires special treatment because a normal wash cannot clean it.

Is blood a Heavy Soil item?

Yes. Blood stains are Heavy Soil.

Is curry a Heavy Soil item?

Yes. Curry stains are Heavy Soil.

Is grease Heavy Soil?

Yes. Heavy grease marks are Heavy Soil.

What is Damaged?

Damaged means linen with physical or structural damage such as tears, rips, holes, or severe deterioration.

Is a torn towel Damaged?

Yes. A torn towel is Damaged.

Is a hole Damaged?

Yes. A hole is Damaged.

Is fading Damaged?

No. Fading or discoloration by itself is not physical damage.

What if linen has both a stain and a tear?

Log the linen under both Heavy Soil and Damaged separately.

Two photos are required for the same unit: one for Heavy Soil and one for Damaged.

How many photos are required for 5 damaged towels?

5 photos.

How many photos are required for 10 Heavy Soil towels?

10 photos.

Can I skip the photo for a small amount of damage?

No. A photo is mandatory for every flagged unit.

Can I upload photos after leaving the hotel?

No. Required photos must be captured at the hotel.

Can I continue without taking all required photos?

No. The app blocks the driver from proceeding until all required photos are completed.

Can I retake a photo?

Yes. Tap the X button on the captured image to remove it and then capture a new photo.

Do I need to select the photo format?

No. The Pushpak app handles the photo format automatically.

Can Heavy Soil or Damaged quantity exceed pickup quantity?

No. The app prevents entering a Heavy Soil or Damaged quantity greater than the pickup quantity.

What if the hotel disputes a Heavy Soil or Damaged classification?

Contact the team.

Do pickup and delivery quantities have to match?

No. They usually match, but the driver should enter the actual pickup quantity.

What if 500 towels were delivered but only 480 are picked up?

Enter 480 as the pickup quantity. Remarks are optional.

Who performs Heavy Soil and Damaged segregation?

The driver performs the segregation at the hotel.
